WHO WE ARE

About Us...

The San Juan Basin Archaeological Society (SJBAS) is a chapter of the Colorado Archaeological Society. SJBAS consists of people who are interested in the archaeology and the early history of the Four Corners Region. Members are of all ages and backgrounds, some with extensive training in archaeology and others with more limited knowledge, but a strong desire to learn.

SJBAS has several objectives: to learn more about archaeology in general; to raise public awareness of our region's significant archaeological and historical resources; and to draw attention to the hazards of vandalism to these unique cultural sites.

Members participate in lectures, discussions, field trips, and volunteer projects. Membership is open to any individual interested in the archaeology and history of the Four Corners Region.

It's easy to join!
